

*Christine TABONG*

Peace being what it is, something a family can't live without, something a Community can't live without. Change Communications made me to understand the meaning of peace and how it can benefit me.

The Ubuntu way of life coming to play a part in my life which is thanks to this training i received. Learnt a lot that I apply in a daily life in other to live in peace with the people around me. The aspect of hate speeches and fake news was trashed during the training. I was so happy to know where to stand when it comes to regional or community disputes

Another great achievement is the creation of the Ubuntu whatsapp group that has played a great role to help us learn how to interact with each other

Thank you change Communications. The universe sees what you do and what you are doing. We love you
