

CHANGE COMMUNICATIONS: WHO WE ARE

Change Communications is a civil society organization (CSO) created in 2010. We believe in the tested fact that, development starts with change of attitude, practices and behaviour at the level of the individual, community and society. Working to bring about such needed change is at the heart of our mission which is, *Communication for change, Change for Development*.

Since its creation, we have acquired considerable experience implementing projects with support from international donor agencies including:

- **United Nations Democracy Fund, (UNDEF)**, New York, USA, (2013-2015)
- **World Wide Fund for Nature-EFN Program**, Washington DC, USA (2015),
- **INTERNEWS-Earth Journalism Network**, Washington DC, USA (2016),
- **French Ministry of European and Foreign Affairs** through the **French Embassy in Yaoundé, Cameroon**, (2020-2021)
